## **Y2K INFORMATION TECHNOLOGY DIRECTIVE**

<b>SUBJECT:</b> Y2K Incident Reporting	<b>NUMBER:</b> 2000-04
<b>REFERENCES:</b> Y2K Information Technology Directive 1999-10	<b>DATE ISSUED:</b> February 11, 2000
	<b>SUPERSEDES:</b>

To:           Agency Secretaries  
              Department Directors  
              Chief Information Officers  
              Year 2000 Project Managers

From:         DEPARTMENT OF INFORMATION TECHNOLOGY

The success of our collective Year 2000 (Y2K) remediation and readiness efforts is evident in the continuing operation of State government and the uninterrupted service to California.

The purpose of this directive is to remind you that all requirements for reporting incidents relating to Y2K remain in effect and also encompass all Leap Year-related incidents. The EMC Communications Center (ECC) telephone numbers are still active, and will remain so through at least March 1, 2000. The reporting procedures and phone numbers are contained in Y2K Information Technology Directive 1999-10, which is available at <http://www.year2000.ca.gov/publications/>.

If you have any questions about this directive, please contact your DOIT Oversight Manager or the EMC Communications Center at (916) 464-3688.

JEFFREY R. PELL  
Chief Deputy Director  
Department of Information Technology
